

Reporting Data

With comprehensive reporting tools, an intuitive and advanced merchant & acquisition portal, manage your transactions with complete peace of mind.

Axepta Online Merchant Portal: Your Complete Dashboard

Access a **clear and detailed overview** of all your transactions in real time. With powerful features and a user-friendly interface, manage your activity with complete peace of mind.

Key Features:

- **Visualization and Export:** View and export all your transactions in CSV format (date, time, status, amount, currency, etc.).
- **Transaction Management:** Refund, cancel, or capture transactions with just a few clicks.
- **Batch Transfer:** Create batch transactions for efficient processing.
- **Reconciliation File:** View and export your reconciliation file for optimal financial management.
- **KPI Analysis:** Track your performance with dynamic charts and key indicators.
- **Enhanced Security:** Manage your blacklists and whitelists for increased protection.
- **User Management:** Create user accounts and assign specific rights.
