The research can be adjusted across several fields to refine your results:

- **"Custom date" + "Creation date" or "Expiration date"** of the link
 - **Date and time range:**
 - The date of the day is displayed by default with a time range from 00:00:00 to 23:59:59.
- **"All link statuses"**
 - Possible choices : **"Created"**, **"Sent"**, **"Sending in progress"**, **"Delivered"**, **"Not created"**, **"Opened"**, **"Paid"**, **"Expired"**, **"Failed"**, **"Rejected"**, **"Desactivated"**.

- **"Send by channel"**
 - The **"Link"** option allows you to display the operations for which the link has been sent by the merchant.
 - The **"Email"** option allows you to display operations where the link was sent by email to the customer.
- **"All currencies"**
 - Same view "Payments" and view "Actions".
- **"Amount range"** with amount range or **"Amount exact"**
 - Allows filtering transactions by amount.
- **Dropdown list containing the fields below as well as an input area:**
 - The **"Customer ID"** selected by default.
 - The **"Invoice reference"**.
 - The **"Contractreference"**.
 - The **"Username"**.

By default, the payment links list contains:

- **Creation date:** Date and time of the creation of the link.
- **Merchant ID:** Store identifier (MID)
- **Payment ID:** Payment identifier generated by Axepta BNP Paribas
- **Merchant reference number:** Transaction number generated by Axepta BNP Paribas
- **Currency:** Payment currency
- **Amount:** Payment amount
- **Link status:** Indicates the evolution of the status of your payment link
- **Send by channel:** Email for links sent via the "Send link" button, or Link for links generated via the "Generate link" button.
- **Username:** User who initiated the payment link creation.

Search Results

When clicking on one of the payments displayed at the level of the research results, the user is redirected towards the **"Payment Link Details"** page. Once on this page, it is possible to return to the **"Payment Details"** page. The user can also return to the previous research screen using the **"Close"** button.

The research results can be exported in **CSV** format for later analysis.
