

Data reconciliation : Key Data

The table below gathers the 3 key data for data reconciliation: data in the request, in the response or in Axepta reports.

Key Data			
	TransID	RefNr*	OrderDesc**
Description	Unique transaction identifier	Reference Number - this data is used to follow up the transaction from the request to the reporting	Order Description
Mandatory / Optionnal	M	M*	M**
Format	ans64	an12*	ans768**
REQUEST - msgVer=2.0			
paymentpage.aspx	Yes	Yes	Yes
paySSL.aspx	Yes	Yes	Yes
payNow.aspx	Yes	Yes	Yes
direct.aspx	Yes	Yes	Yes
capture.aspx	Yes	Yes	Yes
RESPONSE			
paymentpage.aspx	Yes	Yes	No
paySSL.aspx	Yes	Yes	No
payNow.aspx	Yes	Yes	No
direct.aspx	Yes	Yes	No
capture.aspx	Yes	Yes	No
NOTIFICATION - URL Notify	Yes	Yes	No
REPORTING			
BO			
Table	Yes	Yes	Yes
Detail of a transaction or an operation	Yes	Yes	Yes
CSV Export	Yes	Yes	Yes
Search	Yes	Yes	No
SETTLEMENT FILE	Yes	Yes	Yes
SMARTDATA	Yes	Yes	Yes

***RefNR parameter specificity**

The format and conditions of use of these parameters depend on the payment method and the integration mode chosen.

This parameter is used for card payments reconciliation (mandatory).

The table below summarizes all the possible formats for this field.

Format	Condition	Description
AN12	O	CB, VISA, Mastercard
AN12	M	AMEX
ANS30	O	Payment way with Limonetik

ANS40	O	PPRO integration
AN12	M	Direct integration

O : Optional

M : Mandatory

The format depends on the available paymethods for your MerchantId. **Please choose your format in that way that all paymethods are covered.**

We recommend to use the most restrictive format for this parameter (**AN12 - M**) and create **unique RefNr**.

****OrderDesc**

The format and conditions of use of these parameters depend on the payment method and the integration mode chosen.

Examples

- For card payments (CB/Visa/Mastercard), the format of OrderDesc is : ANS..768 - O
- For Amex, the format of OrderDesc is : ANS..768 - M

The format depends on the available paymethods for your MerchantId. **Please choose your format in that way that all paymethods are covered.**

If you offer only card payments with [credit card form](#), we recommend : **ANS..768 - M**

If you offer several payment methods through [Hosted Payment page](#), we recommend : **ANS..354 - M**
