

# Axepta Online introduction

## Axepta solution

Axepta Online payment solution allowing e-merchants to accept online payments and process these payments.

Axepta Online is a set of APIs and interfaces allowing to :

- Offer buyers an ergonomic and secure payment process
- Offer alternative payment methods adapted to buyers' profiles
- Create payment scenarios adapted to the merchant's context (one-click, subscription...)
- Access multiple reports (online or files) to track your business activity
