Contract signature and Onboarding preparation

The onboarding phase allows BNP Paribas to retrieve a set of administrative and technical information to open a contract number, provide you an identifier (MID) and technical access data (HMAC key, Blowfish key) allowing us to integrate our payment solution securely.

Among the information that must be shared between the merchant and BNP Paribas:

- Administrative information on the trader (company name, address, SIRET number, etc.)
- Anti-Fraud Rules
- Contact details (Technical contact/ backoffice administrator)
- Type of integration (Direct integration / Plugin/ Paytweak/)
- RIB (for Reconciliation File and Billing)
