

Time-Out error

The **Time-out** error is usually caused by :

- The structure or the format of the **HMAC key**
- The structure or the format of the **Blowfish key**
- The **structure of your activation key**.

HMAC

The HMAC key has 32 characters and is composed of numbers, letters and special characters.

The key **must not contain any space**, be sure to check the last character of your key.

Blowfish

The blowfish key has 32 characters and is composed of numbers, letters and special characters.

The key **must not contain any space**, be sure to check the last character of your key.

Test tool

Our test tool allows you to check :

- Blowfish encryption
- Blowfish decryption
- MAC calculation
- Base64-encoding
