

# Identify your 3D Secure version

Your Axepta Online payment solution is implemented via

## Axepta Plugin : Prestashop/Magento/Woocommerce

In your plugin Back Office, in Configuration du compte :

If the "**Demande d'exemption 3D Secure**" field is present, it means that you are compliant with 3DSV2 so no action is required.

Configuration du compte

Devise: GBP  
La monnaie sera requise après l'enregistrement de votre clé d'activation

Méthode d'affichage: iframe  
Redirection => redirection externe vers la page de paiement.  
iframe => Affichage de la page de paiement sur la boutique

**Demande d'exemption 3D Secure**: Oui  
Oui => Utilisation de l'authentification 3D Secure permet de protéger le marchand contre le motif d'impayés contestation du porteur. En cas de demande d'exemption d'authentification par le marchand, ce dernier perd ce transfert de responsabilité dans la majorité des cas.  
[pour plus de détails : Transfert de responsabilité et Matrices 3D-Secure - Documentation Axepta BNP Paribas - Axepta](#)

Montant:   
Montant maximum pour les demandes d'exemptions

If this field is not there, an update of your plugin is required.

To download the new version of the plugin, please go to the section [Get your 3D Secure 2.0 plugin for free](#)

## Direct integration

In your Axepta Back Office, open the detailed view of a card transaction.

Transaction Details

Search and filter

Period: From 1/26/2022 00:00:00 To 1/26/2022 23:59:59

Operation characteristics: No specific detail Detail:   
All orders within selected time frame  
All models

Characteristics of Payment: All payment types
