

ipInfo EN

	Key	Format	Condition	Description
1	ipAddress	string	M	IP address
2	country	object	M	Country of IP origin
3	state	string	C	States and provinces (that is, the first-level administrative division) in all countries where they exist
4	city	string	M	City, localized spelling
5	longitude	string	M	The longitude of the identified location, expressed as a floating point number with range of -180 to 180, with positive numbers representing East and negative numbers representing West.
6	latitude	string	M	The latitude of the identified location, expressed as a floating point number with range of -90 to 90, with positive numbers representing North and negative numbers representing South. Latitude and longitude are derived from the city or postal code.
